

Clatsop County Community Advisory Council Minutes

Tuesday, August 6, 2019, 5:00-7:00 pm

Meeting called to order at 5:03 by Chair. Approved minutes and agenda, with some changes. Alan Evans was unable to make it for the meeting, so we will invite him back in September.

Joell Archibald presented an update to CCO 2.0: CCOs have been selected for all areas of the state; two agencies who were denied appealed, and lost that appeal. Readiness reviews will be begin in late August/early September. She provided legislative updates, as well as an overview of the 13 metrics which will be the focus of CCOs in the coming year.

Nancy updated us on the RHIP. In the third week of October, the CCO will do a presentation to each county served around our plan; we discussed possible venues. There will be a community dashboard which is shared with our partners, and updated quarterly, starting in 2020. There is some funding available to CCOs (BUILD fund) to kickstart investments in social determinants of health, with housing as a priority; there is also SHARE funding (for the first two years) for that purpose. The group discussed expansion of services, and the expansion of access to dental services by 2024. Members expressed frustration with a shortage of providers, particularly in dental and behavioral health.

New Business/Announcements:

Nancy is seeking volunteers from each CAC to review the incoming CWIF applications. The regional CAC will review the applications on Sept. 10th, and the board meets the following week.

Meeting adjourned at 6:40pm.

Next Meeting: **Tuesday, September 3, 2019, 5-7pm**
