

Clatsop County Community Advisory Council Minutes

Tuesday, July 9, 2019, 5:00-7:00 pm

Meeting called to order at 5:03 by Chair. Unable to approve May minutes due to no quorum, and no meeting was held in June. We were unable to vote on a new member, as he was unable to attend.

Joell Archibald presented IA Update, with links, as well as OHA website info. OHA has approved Columbia Pacific CCO's contract for the next five years. We will be the only CCO in our region. CCO 2.0 is moving forward. We discussed new harm reduction work taking place in Clatsop County, as well as Behavioral Health benefits.

Heather presented information from the Story Collection project with an introduction and explanation from Nancy. The focus was on housing, and we viewed many of the stories and identified recurring themes. We discussed several issues, social cohesion and treatment groups, and the potential expansion of existing services, as well as the need to do presentations of the data to community groups/partners.

Nancy updated us on the RHIP, and we talked about the letter which was written on behalf of the CACs in support of the CCO 2.0 work, based on feedback from the groups about what it means to be a partner. We also discussed access issues, including telepsychiatry, housing for providers, doctors who won't take OHP, and the vision van (all three counties).

Meeting adjourned at 7:09pm.

Next Meeting: **Tuesday, August 6, 2019 at the Seaside CPCCO Office, 5-7pm**
