

## *Tillamook County Community Advisory Council*

*Wednesday, July 14, 2021 3:00 -5:00pm*

### **AGENDA ITEMS:**

Meeting called to order at 3:04pm by Chair. We approved minutes and agenda.

**Equity Learning Theme: Health Data:** Heather presented an activity in Mural (virtual sticky notes) and the group provided feedback on health equity.

**Child Trauma Informed Network:** Angel shared information about a network that has formed in Clatsop and Columbia Counties to address childhood trauma and create resilience. People were interested in bringing the program to Tillamook County; the group discussed who in the county might be a good person to approach the CCO to request this program.

**IA Update:** Joell presented a COVID update. The Delta variant is “hypertransmissible,” and the two things that can stop it, masks and vaccines, are generally shunned by the same people. Oregon’s eviction moratorium has expired, but the federal one is still available; this is also good for help with utilities, etc. The Tillamook health department is holding vaccine clinics on Tuesdays and Thursdays.

**CWIF Volunteers:** Looking for volunteers to review CWIF applications. Two members have agreed to be reviewers; anyone else who would like to do this can reach out to Romy, Nancy, or Heather.

**Community Check-in:** Discussed onboarding resources and ideas for new members. Also discussed creating a safe place to discuss unpleasant healthcare experiences and gaps in the system, and how to process complaints. The Rinehart event with the Mexican Consulate last weekend was a big success; 250 people were served!

Meeting ended at 5:23pm. **Next meeting is August 11, 2021 from 3-5pm**
