

# Tillamook County Community Advisory Council

Wednesday, November 11, 2022 3:00-5:00pm

## **AGENDA ITEMS:**

Meeting called to order at 3:02pm. Started interpretation, agenda and minutes were approved. Went through new housekeeping slides for virtual meetings and interpretation. Voted in our new member!

**SHARE (Supporting Health for All through REinvestment):** These are funds that the CCO reinvests back into the community to improve overall health. An example: Healthy Homes, which works to improve living conditions for our members and make their homes safer. Casey Mitchell from Community Action Team in Clatsop County gave a presentation on how that program uses the funds. We will continue to fund this program.

**Regional Health Assessment (RHA):** This is how we gather information to put together the next five year plan for the CCO. Heather explained the RHA and the process we will be using to gather info, with a strong focus on equity. Members discussed ways that the CAC has been helpful to them in their lives.

**IA Update:** Belle shared COVID information. We will know next week if the public health emergency ends in February or will be extended for another 90 days. 1.4 million OHP members will be notified via mail when they need to re-enroll. A new veterans Dental Health program helps vets who don't qualify for OHP.

**Community Check-in:** Discussed hybrid meetings; the group prefers to remain online for now.

Meeting ended at 5:03pm. **Next meeting is January 11, 2023 from 3-5pm**
