# How does GOBHI's foster care program differ from ODHS foster care?

GOBHI has a license with Oregon's Department of Human Services to provide foster care. This license allows GOBHI to provide care for youth in the foster care system in both long-term and short-term contexts.

The youth in GOBHI's Therapeutic Foster Care program struggle with a variety of behavioral and mental health challenges. These youth come to GOBHI because our parents are well-trained and well-supported to handle the challenges that arise.
