

Dear CareOregon partner,

Thank you for helping keep our members and communities safe by administering the COVID-19 vaccine. The vaccine champion cards we are providing you with are meant to be given to people after they receive the vaccine. The cards:

- Encourage our members to share their experience getting the vaccine with someone else, to help increase vaccine confidence among unvaccinated people.
- Tell members about how to sign up for v-safe, the CDC's vaccine tracking tool.

These cards are standard paper size (8.5" x 11") and can be printed double-sided and then cut in half. If you wish, you can use a program like Adobe Acrobat to add your logo to the PDF before you print.

Thank you again for your partnership.

CareOregon
